

What's Happening This Week at Resurrection ~ April 8—12

- Monday, April 8th is a P.A. Day, due to a total solar eclipse occurring at approximately 2:00 pm and ending around 4:30 pm, which coincides with student dismissal times. The moment of totality, when the Sun is fully hidden by the Moon, will happen between 3:25 and 3:40 p.m. and the Moon will recede or move away from the sun by 4:45 pm. **Do not look directly at the sun during the entire period of the solar eclipse (2:11 pm to 4:45 pm). It is critically important to take safety precautions to avoid permanent damage to your eyes before and after a total solar eclipse.**

- In preparation for Earth Day this month, the remainder of Wednesday's in April will be litterless lunch days. This means all garbage and recycling items in student's lunches (e.g. yogurt containers, sandwich bags, etc.) will be brought back home. Please pack student lunches in reuseable containers on Wednesday's to help reduce our carbon footprint.

➤

MONDAY, APRIL 8, 2024 —	- P.A. Day—No School
